

Installing the Chinese Language Pack in Windows XP

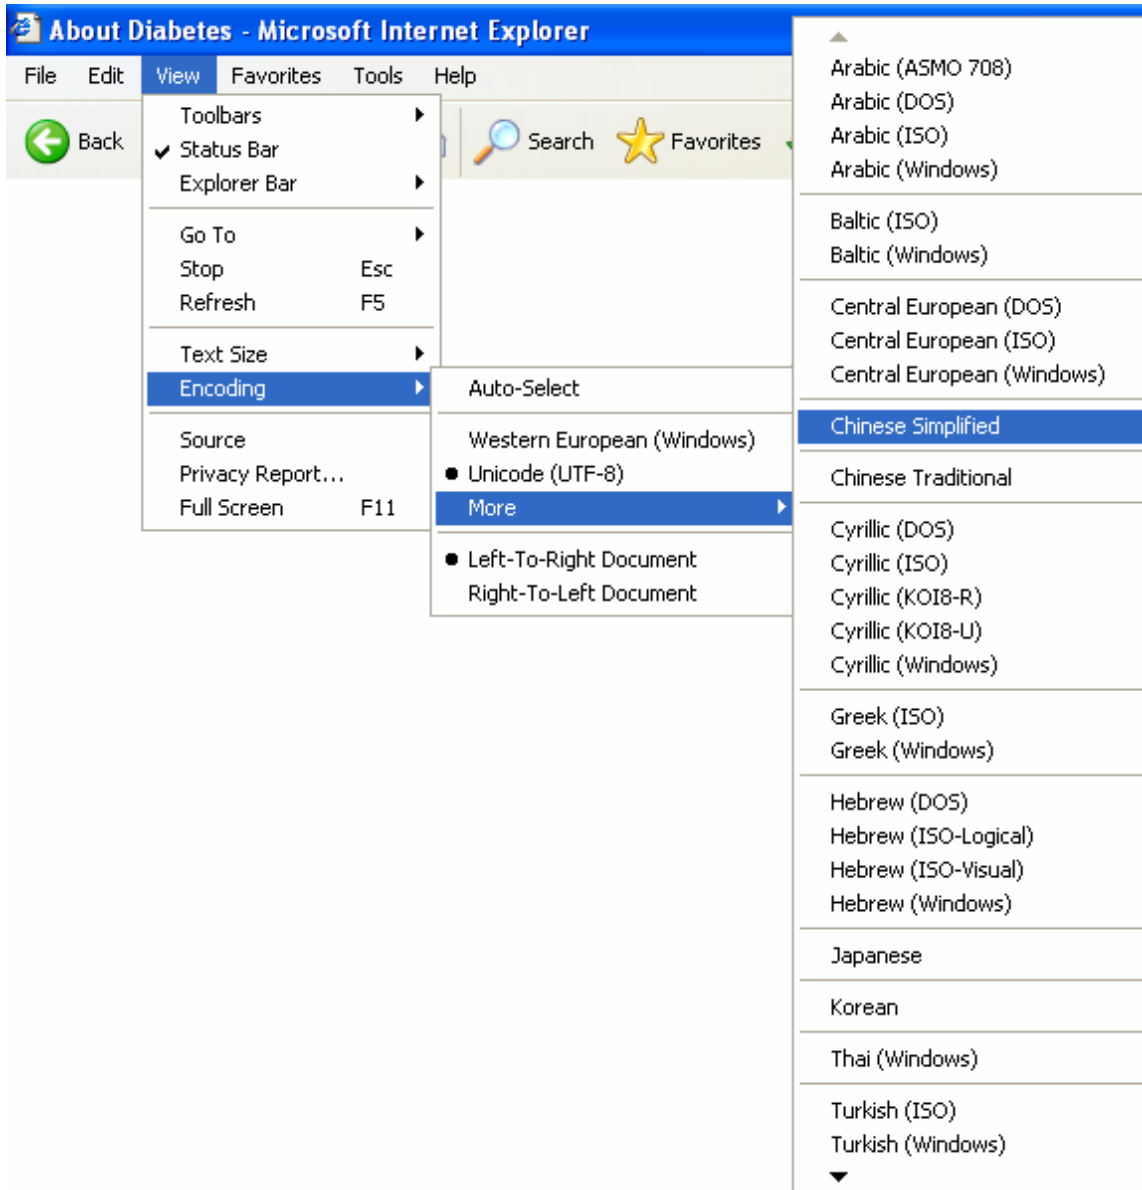

在视窗 XP 中安装中文文字软件包

If you see small boxes instead of Chinese characters, then you need to install the Chinese Language Pack. To do this in Windows XP, you will need your original Windows XP installation disk. If your computer was already loaded with Windows XP when it was purchased, you will need to use the disk labeled something like "Restore Disk" as your Windows XP installation disk.

First, in Microsoft Internet Explorer, click on **View**. Then move the cursor over **Encoding**. Another menu will appear to the side. When it does, move the cursor over **More** in the new menu. Then, another menu will appear to the side. Click on **Chinese Simplified**.

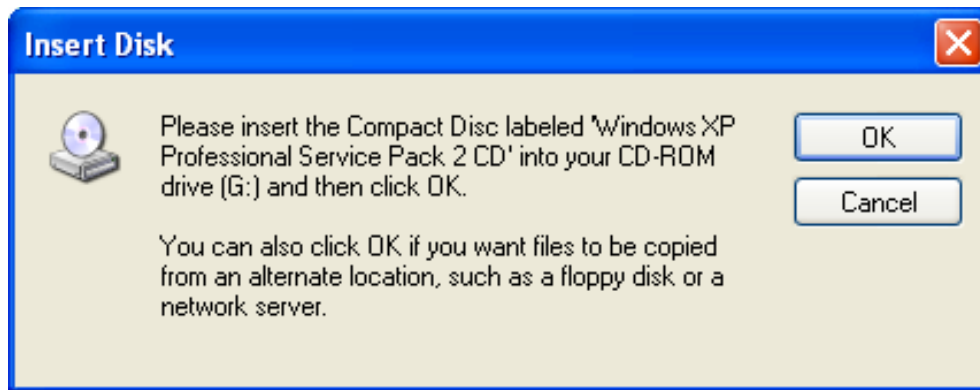

若只见小方块而不能阅读中文文字时,即需要安装中文文字软件包。在视窗 XP 中安装中文文字软件包,需使用原装视窗 XP 磁盘。如果电脑购买时已装有视窗 XP,则只需使用磁盘标有诸如“恢复磁盘”作为视窗 XP 安装磁盘。

首先打开微软网络探索者 (Microsoft Internet Explorer), 点击观看 (**View**)。然后, 移动光标至编码 (**Encoding**), 旁边会出现一菜单, 在新菜单中移动光标至更多 (**More**), 又一菜单出现后, 请选择点击中文简体 (**Chinese Simplified**)。

When asked if you would like to install the Chinese Language Pack, click **Install**. A few moments later, you will see a window similar to the one pictured below. Notice that this window asks you to insert the CD into a specific drive (G: in the case of this example). Insert your Windows XP (or Restore Disk) into the drive it asks for and click **OK**.

在问及是否安装中文软件包时，点击“是”（Yes）。稍后，即可看到与下图相似的视窗。该视窗让您在指定的硬盘（在此以 G 盘为例）插入 CD 光盘。在指定硬盘内插入视窗 XP 安装磁盘（或恢复磁盘）后点击 OK。

安装磁盘

请在光区插入光盘标有“视窗 XP 专业服务协议 2 光盘”，然后点击 OK。

如果您想文件复制到不同的地点，诸如软盘或网络服务器，也可点击 OK。

Windows should then install the Chinese Language Pack on your computer. You may need to refresh the page or restart your computer to be able to view the Chinese characters.

这样视窗应已在您的电脑上安装了中文文字软件包。您只需刷新网页或重新启动电脑，便可阅读中文文字。
